Re: Notice of Noncompliance  
Westinghouse Materials  
Company of Ohio

Dear Mr. Westerbeck:

On May 28, 1992, a representative of the United States Environmental Protection Agency (U.S. EPA) conducted an inspection of Westinghouse Materials Company of Ohio, to determine compliance with the polychlorinated biphenyl (PCB) regulations set forth in the Code of Federal Regulations, C.F.R. Part 761.

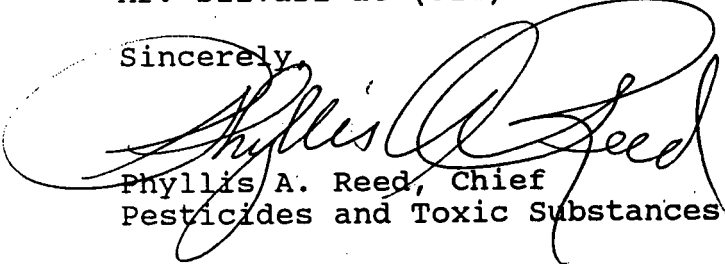

During that inspection, the inspector observed that the PCB Annual Report for 1990 encompassed the calendar year of 1990. 40 C.F.R. 761.180(a) states that the annual document required for 1989 shall cover the period from January 1, 1989 to February 5, 1990. Therefore, the PCB Annual Report for 1990 should reflect the period February 5, 1990 to December 31, 1990.

Within 30 days of receipt of this Notice of Noncompliance, Westinghouse Materials Company must submit a copy of a revised PCB Annual Report for 1990 to document that this violation has been corrected. That documentation must be submitted to:

Tony Silvasi,  
PCB Control Section (SP-14J)  
U.S. Environmental Protection Agency  
77 West Jackson Boulevard  
Chicago, Illinois 60604

If you have any questions, please do not hesitate to contact  
Mr. Silvasi at (312) 886-6878.

Sincerely,

Phyllis A. Reed, Chief  
Pesticides and Toxic Substances Branch
